

Inclement Weather Policy

It is desirable for Shining Light Academy to make announcements regarding school schedules prior to 6:30AM. When inclement weather is a strong possibility or reality, a decision will be made by the school administration. We will run school as scheduled, delay or close. Delays or closings will be called in to the TV and radio stations listed below. Inclement weather in Guilford County can occur in one area while the other areas are unaffected. Therefore, we must be flexible in our decision making. When making a decision regarding the close or delay of school, the following steps are taken:

The School Administration and other designated personnel communicate together to reach a decision. Once a decision is made then an announcement to close or delay will be communicated via the school's phone tree, to TV and radio stations. If there is no announcement it means that "school is open as usual."

If you feel conditions are unsafe in your area, you should keep your children at home regardless whether school is open as usual.

Safety for all is always our priority and policy.
